

Project Design Phase-II Data Flow Diagram & User Stories

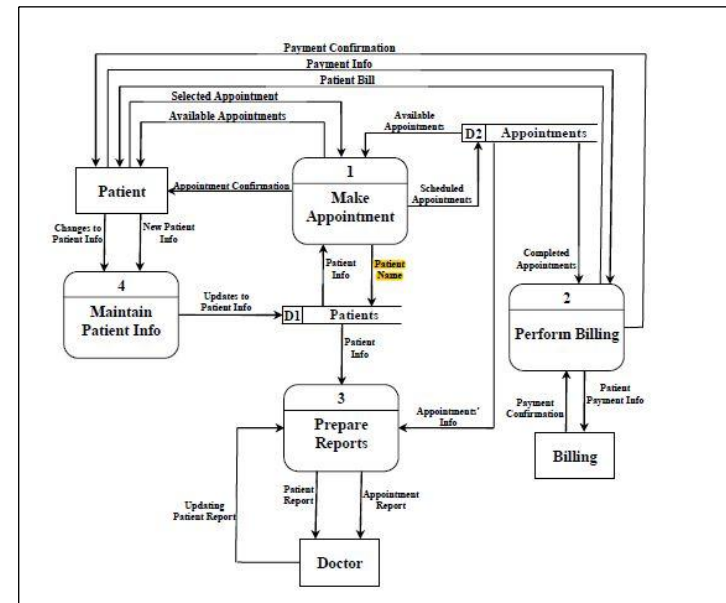

Date	11 September 2026
Team ID	SWUID2026190372
Project Name	Medical Diagnosis Center by Service Portal (ServiceNow)
Maximum Marks	4 Marks

Data Flow Diagrams:

The Data Flow Diagram (DFD) shows how information moves through the Medical Diagnosis Center ServiceNow application. It explains how patient information enters the Service Portal, how appointments are processed, how reports are generated, and how payment information is stored.

DFD Level-0 Explanation

DFD Component	Project Explanation
Patient	Registers in the Service Portal and submits appointment details.
Service Portal	Receives patient details and sends booking requests to the system.
Appointment Management	Checks available slots and creates appointments.
Diagnostic Test Database	Stores available tests, prices, and categories.
Lab Technician	Updates sample collection and processing status.
Report Management	Uploads completed reports for patients.
Payment Management	Stores payment status and invoice details.
Administrator	Monitors appointments, reports, payments, and users.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Patient	Registration	USN-1	As a patient, I can register in the Medical Diagnosis Center portal using my personal details.	Patient account is created successfully.	High	Sprint-1
Patient	Email Verification	USN-2	As a patient, I receive a confirmation email after registration.	Confirmation email is sent successfully.	High	Sprint-1
Patient	Login	USN-3	As a patient, I can log in using my email and password.	Patient accesses the Service Portal dashboard.	High	Sprint-1
Patient	Diagnostic Test Booking	USN-4	As a user, I can register for the application through Gmail	Appointment is created successfully.	High	Sprint-1
Patient	Slot Selection	USN-5	As a user, I can log into the application by entering email & password	Only available slots are displayed.	High	Sprint-1
Patient	Appointment Tracking	USN-6	As a patient, I can view the status of my booked appointment.	Status changes are visible in real time.	High	Sprint-2
Patient	Report Download	USN-7	As a patient, I can download my completed diagnostic report.	Report is available after completion.	High	Sprint-2
Patient	Payment	USN-8	As a patient, I can make online payment for diagnostic tests.	Payment status is updated as Paid/Pending/Failed.	Medium	Sprint-2
Receptionist	Appointment Management	USN-9	As a receptionist, I can manage patient appointments.	Appointments can be viewed and updated.	High	Sprint-2
Lab Technician	Sample Collection	USN-10	As a lab technician, I can update sample collection status.	Status changes to Sample Collected.	High	Sprint-2
Lab Technician	Report Processing	USN-11	As a lab technician, I can upload diagnostic reports.	Reports become available to patients.	High	Sprint-2
Lab Manager	Approval Workflow	USN-12	As a lab manager, I can approve specialized diagnostic tests.	Approval status changes to Approved or Rejected.	Medium	Sprint-2
Administrator	User Management	USN-13	As an administrator, I can manage users and roles.	Users receive role-based access.	High	Sprint-3
Administrator	Dashboard & Reports	USN-14	As an administrator, I can monitor appointments, reports, and payments.	Dashboard displays real-time data.	High	Sprint-3
Administrator	Email Notifications	USN-15	As an administrator, I can configure automated email notifications.	Patients receive booking, payment, and report emails.	Medium	Sprint-3
