

Project Development Phase Model Performance Test

Date	11 September 2026
Team ID	SWUID2026190372
Project Name	Medical Diagnosis Center by Service Portal (ServiceNow)
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	Model Summary	Medical Diagnosis Center is developed as a ServiceNow Scoped Application using Service Portal, Custom Tables, Business Rules, Flow Designer, Notifications, and Role-Based Access Control. The application manages patient registration, diagnostic test booking, appointment workflow, report management, payment tracking, and admin dashboard in a centralized healthcare platform. Note: Patient records, appointments, reports, and payments are stored in ServiceNow custom tables. The system validates data before creating records.	
2.	Accuracy	Functional Testing Accuracy: 100% Validation Accuracy: 100% All core modules such as patient registration, appointment booking, report viewing, payment status, workflow automation, and email notifications were tested successfully.	

3.	Confidence Score (Only Yolo Projects)	Validation Result: All workflows executed successfully. Verified Features: • Appointment created successfully. • Duplicate slot validation working. • Report uploaded and available to patient. • Email notification triggered. • Payment status updated correctly. Overall System Validation: Successfully Passed.	 The screenshot shows a web application interface titled 'My Lab Reports'. It features a table with columns for 'Test Name', 'Result', 'Status', and 'Action'. The table contains several rows of data, including 'HbA1c', 'Fasting Glucose', and 'Lipid Profile'. The status for all tests is 'Complete'. The interface also includes a search bar and a 'Filter' button.
